

EARLY HUMAN DEVELOPMENT - HUNTING, FISHING AND GATHER SOCIETY

SOURCES SOURCES	GEOGRAPHICAL POSITION	ECONOMY ECONOMY	SOCIAL SOCIAL	GENDER GENDER	RELIGION RELIGION	CULTURE CULTURE	TECHNIC TECHNIC	FOOD+HEALTH FOOD+HEALTH
Archeology excavations	East Africa - Origin	Nomads	Individuals - often lived in monogamous relationship	Women were more tied to the settlement - breasts feeding..	Homo sapiens neanderthalensis 125.000 years ago buried individuals with burial gifts - items, flowers, and pollen (seed)	300.000 years ago - Homo erectus - a bone (rib) with some engraved half circles...	Stone tools!	Plenty of food!
Anthropology		Hunting, fishing gathering		Women participated in the gathering of food close to the settlement		20.000 - 15.000 years ago - Cave Art Animals, hunting and hands... Not a "gadget society"	Different Stone Age Periods	Limited population
Study of "primitive cultures"		Trade (when there was a surplus)	Families - family group		Less children		Paleolithic Age (Older Stone Age) 500.000 years ago	Lots of exercise...
Climate research		Transport - land ("Indian sleigh") and by water...	Herd = 3-6 families	Certain equality		Hand wedges, small axe, later knives, drill, hide scrapers (Homo sapiens neanderthalensis) Late Paleolithic Age		Herbal medicin
Osteology			Tribe = 15-20 herds		More male leaders		100.000-40.000 years ago	
Dendro-chronology			Few wars...	ARCHITECTURE Holes, caves...		Hand wedges, small axe, later knives, drill, hide scrapers (Homo sapiens neanderthalensis) Late Paleolithic Age		
			Few leaders...		40.000-10.000 years ago Advanced flint technic...			
SOME QUESTIONS							Mesolithic Age Middle Stone Age 10.000-8.000 years ago Small flint edges, knives. (microlith) bow, arrows, axe...	Neolithic Age Late Stone Age 8.000 year ago Transfer over to farming, ceramics, & sharpened tools
1. How do you think our lives are affected by the fact that we have during the vast majority of our time (99.9%) been "programmed" to hunt, fish and gather?								
2. TIME! Discuss the natural cycle of time during one day (24 hours) for us human beings.								
3. Is a woman's place biologically determined or is organized by men?								
4. What major changes occurred when the humans went from a food gathering economy to a food producing economy?
